LIFE ON THE POTOMAO.

From 10 o'clock Saturday night until the sun had gone behind the Virginia hills, Sanday, could be heard the "loottoot' and the natural grinding from the power launches on their way down and up the majestic Potomac. In the spirit that possessed Longfellow when

he wrote
"And the night will be filled with musis,
And the cares that infest the day
Shall fold their tents like Arabs,
And as allently steal away,"
these pleasure seekers could be seen and heard as they passed the city. There could be no prettier sight than the parade of these boats as they passed in review from Washington as far as In-dian Head. Everbody aboard seemed to be happy, judging from the shouts of merriment which could be heard anywhere along the wharves. Added to the pleasure is the feet that readed to the pleasure is the feet that readed to the pleasure is the feet that readed to the retired minus one can be interfered. p'ea ure is the fact that no loss of life is reported. A number of launches engaged in a racing contest for sport, as they do every Sanday. The day was all that could be desired and those who wanted sport were not slow to appreciate its beauty.

ALLEGED WHITECAPPING.

About twelve o'clock last Saturday Samuel Fones and Thomas McCaen, who were in the vicinity of the Washington and Obio depot, had their attention directed to John, alias Nep, Penn and a colored woman. Penn, who, it is said, lives in the house with woman, seemed to be infatuated with her, and was showing his affection by divers kisses and hugs. This procedure exasperated the two young men, and having procured stout switches they seized Peun and began to administer a genuine Kentucky whitecapping. Penn cried "murder!" and the young men buck dancers, will also be here and for vanished. The victim procured a war- an absolutely clean and eccentric danc- and Mr. George B. AN OBJECT LESSON.

The periodical epidemic of retroces-

n has about run its course, but it is opportune nevertheless to call attention to an object lesson now on the screen. Every time the reprocession distemper breaks out in Alexandria enthusiasts paint all sorts of pictures of the ma-terial benefit they imagine Alexandria would receive were the city again a part of the District of Columbia, such deluded persons supposing that Washington would vie with our people in augmenting the commercial interests of Alexandria. The answer, that such ago, when our city was known as "Alex-sudria, D. C.," may be alexated but it is a sufficient rejoinder to nounced its purpose to take the anreturned from Capon Springs, where she had spent several weeks, and was apparently in her normal condition when she was suddenly prostrated, while looking over her fi wer garden. Her condition became so alarming that she was removed to the Alexandria Hospital, but notwithstanding she received the best medical attention, she failed to rally and, as stated, her death followed late Baturday night.

The deceased, who was justly esteemed they desire to attach to the tail of their kite, and a meeting of the Washington Chamber of Commerce is to be held to protest against such a procedure. The same action would be taken if our city

was in the district. POLICE COURT. [Justice H. B. Caton presiding.] The following cases were disposed of

The captain finally decided to return to Washington and upon srriving off that city he signaled the police for help, then docked the stramer. Twenty negroes were arrested but only six were held as the ring-leaders in the riot.

OPERA HOUSE.

No doubt the popularity of this house is assured for the coming season. After the first week of good vaudeville and pictures which have been appreciated by the large crowds, there certainly will be no trouble for the management to give the people of Alexandria the best acts and pictures that are obtainable. Beginning tonight those absolutely funny acrobats Fager & Kemp with a novelty in their line will be here. This is the best vaudeville in this country and will please.
